

STUNNING APPEARANCE AND FULL OF POWER

T3

AN EYE-CATCHING EXPERIENCE

FULL OF POTENTIAL

There are so many kinds of SUVs, however which one is the kind that can caught the attention of young people? The one that is designed to be fashionable, to be technically blasted, but also full of power! The NEW T3 CVT is a dynamic positioning double T urban SUV. This car maintain the fashionable appearance and the open space size of the current model. Also, its configuration has been optimized and upgraded. As a whole, the T3 CVT is very suitable for young people's tastes in terms of appearance and configuration.

STUNNING APPEARANCE AND FULL OF POWER

T3 are created for young people and car enthusiasts who are more focused on stylish looks and advanced car equipment.

STYLISH APPEARANCE

The comfortable and large space has become an important reference in choosing a car for young consumers nowadays. The T3 CVT has a large body size of 4350*1825*1685mm and a long wheelbase of 2565mm, giving the driver a spacious and comfortable interior. The specific T3 CVT model adopts the new front face of the "wing" family, and the air intake grille is wrapped in bright and exquisite chrome-plated decorative pieces, people can't help but notice the one driving it. The smart double-ring LED daytime running lights echo the sleek and elegant round rear fog lights, showing the speed of the T3 CVT. Its sporty colored body is in two-tone style, the body is lined with outlines, and the edges and corners are distinct. The SUV's rigid atmosphere is a revelation. Isn't it such a high-valued SUV.

LED DAYTIME RUNNING LIGHTS

These sleek lights with stylistic touch helps to improve your visibility towards other vehicles.

THIRD BREAK LIGHT

Additional break light at the center back of the car with safety warnings that protects you while driving.

SIDE MIRRORS WITH INTEGRATED TURN INDICATORS

Turn indicators on the side mirrors helps improve your visibility in areas with heavy traffic. It has defogging technology that helps remove fogs or moisture on the side mirrors during rainy season.

16-INCH ALLOY WHEELS

A sporty redesigned exterior with accentuate shiny alloy wheels.

CHINESE BLUE

FLAME ORANGE

An aerial photograph showing three red cars driving on a winding dirt road through a desert landscape. The terrain is sandy with sparse green bushes and trees. The cars are positioned at different points along the road, moving from the top towards the bottom of the frame. The lighting suggests a bright, sunny day, casting shadows from the cars and the surrounding vegetation.

DRIVE WITH CARE AND CONFIDENCE

T3 cares for your safety. It has driver-assistive technology that can help you sense things you might miss while driving. In some cases, they can even help you avoid a collision or mitigate its severity.

CVT'S NEW DRIVING EXPERIENCE IS MORE LIBERATING

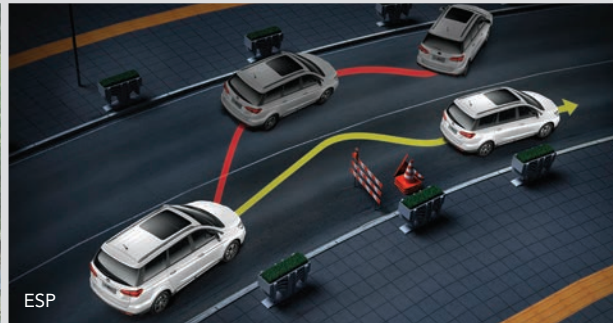

To experience speed and passion in driving is what most young people preferred. Compared with the manual transmission model, the launch of the T3 CVT model gives consumers more choices. The T3 CVT models equipped with 1.3T turbocharged engine that has a maximum power of 98KW and maximum torque 185N.m, power. Its simulated 6-speed CVT gearbox, ensures smooth fuel economy while shifting smoothly. The chassis of the specific speed T3 CVT model is adjusted by internationally renowned Swedish experts. Also, it has a minimum ground clearance of 200mm with a turning radius of only 5.1 meters. The passing indicators leads the same level, and helps you easily pass through complicated road conditions such as wading roads, muddy roads and potholes.

SECURITY CONFIGURATION IS MORE RELIABLE

Safety is the top priority for driving. The speeding car adopts a number of safety configurations that exceed the same level, giving the driver the most comprehensive protection. T3 CVT is rich in active and passive safety model. With traffic safety integrated system, a lane departure warning system, blind spot monitoring wraparound 6-airbag, the TPMS tire pressure monitoring system and a security configuration beyond sibling. The T3 CVT is not only beautiful, but also hard and strong. The body adopts a cage-type bearing design, and the proportion of high-strength steel is over 50%, which effectively protects the safety of drivers and passengers. The front/rear parking radar, reversing image, car driving recorder and other humanizations, eliminates the trouble of post-installation and make driving more conducive. In addition, the sports multi-function steering wheel integrates entertainment system, Bluetooth hands-free, cruise control and other functions into one, making the car more convenient. Rear-view mirror electric folding, electronic handbrake, cruise control and smart technology configuration such as keyless entry/one-button start helps in eliminating the cumbersome operation and giving you an easy driving experience.

It is worth mentioning that the panoramic speed sunroof T3 CVT models have a large panoramic view that gives a perfect lighting and ventilation inside the car's cabin. The T3 CVT mode exceeds the NVH noise reduction design of the same class. It has a minimum speed of only 38 decibels when in idle, creating the ultimate comfort experience compare to the mainstream joint venture models.
